European Society of Neuroradiology: ESNR Rise

Dear Prof Turgut Tali,
Dear Turgut,

The ESNR Executive Committee has conceived a project, called "ESNRise", aimed at fostering and engaging the young members of the society, to enable them to take part in shaping the activities of the ESNR. In fact, we recognize that young members are crucial for the future of our society, and it is from this segment that the opinion leaders of the future will emerge.

We also recognize that national societies can play a key role for the success of this program. In many instances, these societies already have established programs aimed at the young, and in some cases well-organized national groups are active which may be called to contribute to the ESNRise program. In any case, national societies can help us popularize this call, inviting their young members to participate and take an active part. Since the activity is directed to individuals that are younger than 38 years and are Full Members of the ESNR, this is also an opportunity to invite those who are interested in the program but are not yet members to register to the society and apply to participate.

Thus, we hope your society will support the initiative. Please find enclosed the call, which has already been forwarded to the ESNR membership; please feel free to use your channels (member directories, websites, social media) to spread it further.

Thank you so much.
Kindest regards,

Prof Andrea Rossi
ESNR Vice President and Secretary General
on behalf of the ESNR Executive Committee

PRESIDENT
Prof. Tarek A. YOUSRY

VICE PRESIDENT
Prof. Andrea ROSSI

PAST PRESIDENT
Prof. Pia Maly SUNDGREN

SECRETARY GENERAL
Prof. Andrea ROSSI

TREASURER
Prof. Cem CALLI

**Chair of the Subspecialty Committee,
